DEMCO

Our Story

Back in 1950, Robert Dethmers started Dethmers Manufacturing Company in a corner of an implement dealership. One of his first products was fertilizer application equipment for the agricultural industry.

Since the beginning, Demco has pursued a dream to fill needs, provide solutions, and compete in an existing marketplace. Demco has product lines in agriculture, towing, 5th wheel hitches, trailer components, Rental Industry, and semi trailers. Demco has earned its place with the right combination of skill and technology needed to produce the best products available without compromise.

Today, as Demco continues to grow, our tradition of building quality products, employing talented, industrious people and providing attentive service remains. Our sales staff, along with our dealers and distributors across the United States, Canada and the world, carry on the standard.

We enjoy long-term relationships with our clients and look forward to this continuum with our new clients.

US Patent 7,699,406

Integrated System · Zero Setup time to tow · Fully transferable to new vehicle · 100% Proportional braking

WHY AIR FORCE ONE

- Engineered for diesel RVs with air brakes
- Demco-exclusive integrated breakaway system
- Meets chassis warranty & Federal D.O.T. / FMVSS requirements
- Patented actuator helps your RV and towed vehicle brake as one

STAY-IN-PLAY DUO

DUO with Wireless Coachlink	9599018
Stay in Play Duo Braking System	9599006
DUO Reinstall Kit	6270

US Patent 6,644,761

Integrated System · Zero Setup time to tow · Fully transferable to new vehicle

WHY STAY-IN-PLAY DUO

- Engineered for gas RVs with hydraulic brakes
- Demco-exclusive integrated breakaway system
- Unique dual-signal activation
- G-Force controller lets you adjust braking power
- Patented actuator helps your RV and towed vehicle brake as one

DELTA FORCE

Delta Force Braking System	9599004
Delta Force 2nd Car Kit	6221

Portable system · Easily transfers to other vehicles · 100% Proportional braking

WHY DELTA FORCE

- Engineered for both gas and diesel RVs
- Set it Once pedal clamp
- Up to 75% smaller than other portable systems
- Features Coachlink wireless notification system

MADE IN USA

Watch this Video on the KarKaddy X:

Unfolded Kar Kaddy™ SS length is 133"

Many RV park lots are not deep enough to accommodate your motorhome and tow dolly.

Folded Kar Kaddy ™ SS length is 67"

By using only half the space, you can fit both the motorhome and tow dolly comfortably in almost any RV lot. Or you can store your tow dolly in front of your car in your garage at home.

TOWED CONNECTORS FOR DINGHY TOWING

No Slicing. No Mistakes.

The Industry's Best Direct Plug-in Electrical Hook-Up for Your Towed Vehicle

1. Remove the rear taillights and locate the factory wiring harness at the back of each taillight housing and unplug it

2. Shown is the T-type connectors in the Demco Towed Connector Harness

3. Connect the vehicle factory wiring harness to one end of the Demco Towed Connector T

4. Plug the other side of the Demco Towed Connector T into the back of the taillight housing

5. Re-install the vehicle taillight and route the rest of the harness up to the front of the vehicle

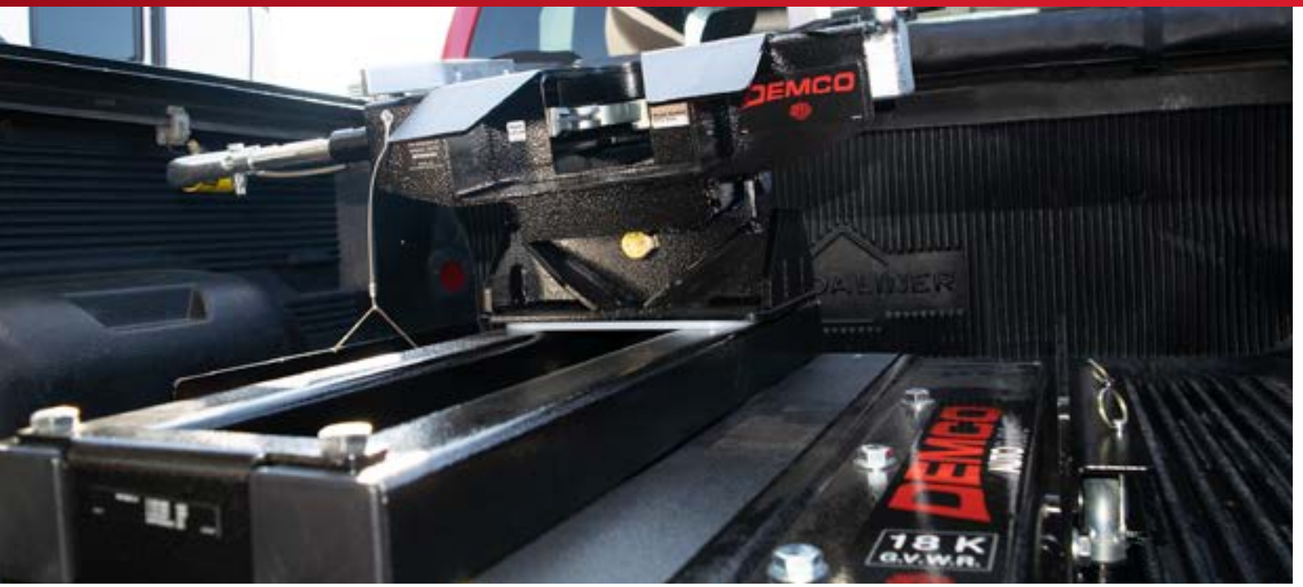
AUTOSLIDE 13K, 18K, AND 21K 5TH WHEEL HITCHES



13K Above Bed Mount
Industry Standard Bed Rails Included

8550047

13K Above Bed Mount
Bed Rails NOT Included

8550048

13K Under Bed Mount (UMS)

8550049

- **No locking plate required** for standard pin boxes to activate slide mechanism
- **Wrap around jaw** with locking bar for a smoother, safer and more secure ride
- **22 1/2 INCHES** of travel to help get in and out of those tight spots
- Up to 2 3/4" side-to-side travel to keep your pinbox from hitting bed rails or Tonneau-cover rails
- Industry standard bed rail mounting

  ** Frame Mounting Brackets must be ordered separately*

  ** Need locking plate with Glide Ride, Mor Ryde, Trailair Tri Glide, Trailair Flexair, Rota Flex or 5th Airborne pin boxes*

· Adjustable thread shank design to make locking plates more secure in selected position

· Narrowed king pin entry ensures the king pin is centered in the jaws for easier hook up!

· **Maintenance free guide roller** – Lubrication infused bushing

· Teflon wear plates are now wider with beveled edges for smoother turning and transition.

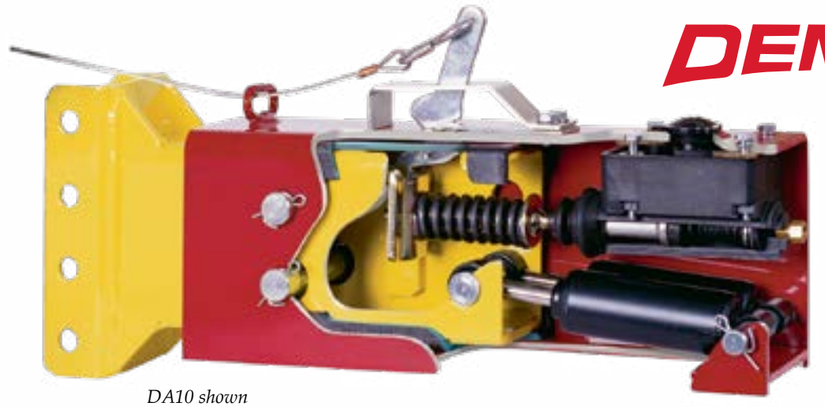
DEMCO

TRAILER COMPONENTS

DEMCO ACTUATORS

DEMCO



DA10 shown

MADE IN USA

Hydraulic surge actuator

With industry leading features, Demco Actuators are built heavy duty in the USA for the safest braking and extended trouble-free life.
Available in 7000 lb. to 20,000 lb. G.V.W.R. models.

FEATURES

- Diaphragm in master cylinder cap provides completely enclosed system
- Raised fill plate prevents intrusion of contaminants when removing cap
- Tie loops on cap allow for tethering, creating a tamper-proof seal
- Bellow boot on push rod for more resistance to moisture and contaminants
- Color-coded decal on emergency lever allows quick glance if brakes are on or off
- Actuators fit standard 3″ tongues - 4″ is available as an option
- 50° A-frame mounts available
- Acetyl Copolymer liners eliminate reliability issues with rollers
- Line pressure controlled by spring loaded push rod
- Integrated shock dampening design
- Emergency cable is attached with a new clevis for easy replacement in the field
- Finishes include Silver Metallic, Black, Zinc and Primed for corrosion-free operation
- Standard master cylinder on all actuator models are made of long glass reinforced nylon. Rust and corrosion are eliminated. *Anti-splash baffle deflects the brake fluid “geyser effect” when bleeding system*
  New composite master cylinder retrofits previous models without modification
- DA20 disc brake actuators have an optional 1-1/4″ bore aluminum master cylinder and heavy-duty push rod assembly for higher line pressures required for 3 or more axles

DISC BRAKE CONVERSION

CONVERTS ANY DRUM BRAKE ACTUATOR TO DISC

ITEM #	DESCRIPTION		WT (LBS.)
6115	DA20	Changes standard master cylinder to large bore disc brake with a bypass. Installation includes replacement push rod (factory installed only)	2

UNASSEMBLED ACTUATOR KITS *DA91, DA10, and DA20*

These actuators come unprimed and are unassembled for weld on applications. Parts come boxed for assembly after welding and paint.

DEMCO

EZ LATCH COUPLER

MADE IN USA

STEP 1

The EZ Latch coupler remains in its locked position. No need to open the coupler. Simply back under the coupler and start lowering it onto the ball.

STEP 2

The coupler will automatically open to accept the hitch ball into the coupler socket.

STEP 3

Once the trailer is completely lowered, the coupler will automatically lock around the hitch ball.

Demco's exclusive EZ Latch coupler design automatically latches when dropped onto a hitch ball.

- **SAFETY -** All Demco EZ Latch couplers exceed all required SAE J684 safety standards without the use of a safety pin.
- **SECURITY -** Never forget to latch your coupler again. Let our EZ Latch system bring you peace of mind when hooking up your next trailer.
- **MAINTENANCE FRIENDLY -** The EZ Latch System is a maintenance-free system. NO grease or adjustments needed.
- **VARIETY -** EZ Latch couplers are available in a variety of styles and weight ratings: channel mount, tube mount, and A-frame from 10,000 to 21,000 lb. G.V.W.R.
- **LIFETIME WARRANTY -** Limited Lifetime Warranty on the composite handle to the original owner

The EZ Latch coupler is offered in an array of different hitch mounts in both 2" and 2 5/16" ball coupler sizes

MOUNTING CONFIGURATIONS INCLUDE:

- Weld on or bolt on 3" tongue tube
- Weld on or bolt on A-frame
- Bolt-on adjustable height channel mounts
