**John Deere  
8000 Track**

## Installation John Deere 8000 Track

Use any three holes in a row of the five holes depending on the track width. When position is determined remove every other bolt of the six bolts in the track mount, that will match up with the three bolts (#5) in the bracket. Repeat for other side of track mounting. On the row of bolts to the front of the tractor, hold bolts in bracket up to just short of flush of the bottom of bracket, secure in that position with vice grips. Also adjust track so bolts will miss lugs. Then slide in place and tighten all bolts. See diagram.

**ASSEMBLY  
REPLACEMENT PARTS**

REF. NO.	PART NO.	QTY.	DESCRIPTION
1.	12315-35	1	Right Baseplate for Sidequest
2.	12316-35	1	Left Baseplate for Sidequest
3.	02851	8	3/4"NC x 8-1/2 Hex Head Bolt (Gr. 5)
