

DEMCO

2023 5TH WHEEL HITCHES

RECON 5TH WHEEL HITCHES

The Recon is a lighter weight geometric design with multiple mounting options. The lighter weight design allows you to easily separate the hitch into three pieces making installation and removal quick and easy. Because the Recon utilizes a standard 5th wheel head design, no adapter plates or pin box modifications are needed. Made in the USA!

DEMCO
RECON

Latch handle built in
no additional levers or rods needed to hook
or unhook

Light weight design
three piece design for easy install and removal

Wrap around jaw
with locking bar for a stronger, safer and
more secure towing experience

RECON SLIDER 5TH WHEEL HITCH

You asked and we listened! Continuing in the tradition of the Recon series, the Recon Slider is a lighter weight version of traditional manual sliders. With up to 14" of travel and the ability to easily remove the hitch from the truck, the Recon Slider sets a new bar within the 5th wheel hitch market. Utilizing copolymer, self-lubricating bushings to make for smooth slide movement you will enjoy years of operational enjoyment! The Recon Slider can be ordered with Industry standard bed rails or without. For trucks with a puck system, pair with one of Demco's industry leading OE puck adapters (see inside back cover). **Made in the USA!**

18K & 21K AUTOSLIDE

Make Life Easy

The 18K & 21K Autoslide Ultra series makes towing fun. Just hook up and go is what we like to say. Utilizing the “Above Bed” or Ultra series mounting system this 18K or 21K Autoslide does everything you need it to do. Getting in to and out of those tight spaces will be a breeze! Already have a Demco Ultra Series Manual or stationary 5th wheel hitch? Simply upgrade to the 18K or 21K Autoslide without having to change your mounting system. Just drop in, hook up and go!

Wrap around jaw
