

PACKING REQUIREMENTS FOR IMPORTED PRODUCT

1. All raw product (unfinished) must have water soluble oil applied and silica packs in the crate.
2. All product must arrive without damage, rust/corrosion, or contamination. All product must be protected in such a manner as to prevent damage of any kind during shipment. Any product that is delivered with quality issues is subject to rejection and short pay.
3. All crates must have a plastic liner in crate or boxes, where appropriate.
4. The maximum weight per box is 4000 lbs.
5. The maximum dimension for all boxes or crates is:
 - a. Height= 40"
 - b. Depth= 48"
 - c. Width= 42"

These dimensions include the skid or pallet. Unless there is a good reason to do so, Demco does not want any box or skid to exceed these dimensions.

6. All boxes must have clear identification of part #, quantity, PO#, date, & weight with bar codes provide as per the 'Bar Code Request Form' found on the web portal.
7. All purchase order quantities must meet the tolerances of -0/+10% of the order quantity, unless specified otherwise. Demco must be made aware of situations that would require the completed quantities to fall outside of these tolerances. Demco reserves the right to reject or short pay any quantities that exceed the 10% of order quantity.
